Chinese Drywall - URGENT message regarding legislation

Note from the sender:

Greetings,
Please see urgent message from Bob Brown of Alters, Boldt, Brown, Rash and Culmo to the right. Remediation protocols are not established and are not simple. There has been reports of cdw odor and corrosion after removal indicating you can't simply remove the cdw without proper post demo treatments.

Here are some important links from MDL website:

Be sure to contact your attorney before doing any treatments or remediation. We are providing Preservation of Evidence services if you need them. Contact us or your attorney for more info.

Bob Brown's e-mail:

LEGISLATIVE ALERT: HB 1133 and SB 2196 are bad for homeowners and communities, and we need your help to stop it. This bill is coming up for a vote this Thursday afternoon, and your voice counts!

Last year, your grass roots efforts in the waning hours of the legislative session caused a terrible amendment to be withdrawn...not just once, not just twice, but three times! Well, Senator Bennett is back at it again and we must act now to stop it.

Let me tell you why these bills are bad in a nutshell: Under the proposed legislation, if you remediate your house, your agreement to the remediation protocol would act as immunity for the contractors and developers who installed the defective Chinese drywall AND as immunity for the contractor or developer who fixes the drywall even if they fix it wrong -- simply because you agreed to it.

Here is my suggestion: START EMAILING AND CALLING! Tell them you oppose the bill as a homeowner and taxpayer!
